

## CONGRATULATION ADDRESS TO MPI JOURNAL FROM JOURNAL PHYSICS MEDICA – EUROPEAN JOURNAL OF MEDICAL PHYSICS

Iuliana Toma-Dasu <sup>1</sup>

<sup>1</sup> Editor-in-Chief of Physics Medica – European Journal of Medical Physics

ON THE 10 YEARS ANNIVERSARY OF THE  
IOMP JOURNAL MEDICAL PHYSICS  
INTERNATIONAL (MPI)

It brings me great joy to congratulate the IOMP Journal Medical Physics International (MPI) on its 10 Years Anniversary! I am honoured to have the opportunity to acknowledge on behalf of the Editorial Board of Physica Medica - European Journal of Medical Physics and its readers, the contribution of MPI to the progress in the field of medical physics, to the development of the medical physicist profession and to the growth of our international community of medical physicists.

With strong connection to IOMP, MPI is publishing articles of global interest for medical physicists on educational and training aspects, professional issues, research and development complementing in the optimal way the other medical physics journals in the spirit of collaboration fostered by the highly dedicated editors of

MPI, Prof. Slavik Tabakov and Prof. Perry Sprawls. Indeed, the editorial policy of MPI focusing on identifying topics of high relevance for all the medical physicists around the world has shaped the profile of the journal and strengthened its position among the medical physics journals. Furthermore, the series of papers dedicated to the history of medical physics presenting not only the evolution and the milestones of the technology used in medical physics applications but also the overall development of the profession brought together our community in a unique way that is highly appreciated by the readers of the other medical journals, such as Physica Medica.

I would therefore like to acknowledge one more time the privilege of collaborating with MPI to serve the medical physics community, to thank its editors for their fantastic work to develop the journal and to make it available to everyone, and to wish them many more occasions of celebration.

We will be there, next to you, as always, to share the work and the joy.

**Congratulation!**

Prof. Iuliana Toma-Dasu,  
Editor-in-Chief of Physics  
Medica – European Journal of  
Medical Physics
